Introduction

I was born a Londoner, but **my heart lays within Lincolnshire and my home is in Lincoln**. I am an open person and get on well with people from all walks of life, especially in my local area of **Bracebridge heath and Washingborough**. I was a security officer for the local court rooms and **One of the things I've learned from that time was, taking the time to explain why something is happening and treating everyone with respect, goes a long way**. Listening to people and understanding their perspective is massively important in working together for mutual benefit and to get things done. All while remembering **listening and understanding is the key to any problem**.

Why is running important to me?

The reason is a passionate one for me, as I'm a person that is heart broken how politics is run today, at ALL levels. **It isn't run for the interests of the people locally any more**, it seems to be run by people that are interested in how situations make them or the party look. We can't have this in politics anymore it causes division and hatred. **I think any politics that promotes hatred, even if indirectly, needs to stop!** That is why I want to break this political style and go back to what once was called democracy. **The people who are elected should represent the people first and the party second**, seems such a novel idea but I think it could work, **what about you?**

I'll work with whoever I need to in a common goal for the good, while rejecting the idea of scoring points for the party, it's time to get things done! Not to stop good ideas because the opposition thought of it. While doing this I believe **people in politics should want to listen to their electorate and bring political discussion back to the local level!** After all **who else knows better than the people that live there?**

What I would like to see in the future

I want for everyone, what I would want for my family or friends. I want everyone to be in a safe and secure area that is looked after by the proud people of Bracebridge heath and Washingborough.

I am a firm believer in environmental health. I want to make sure we can do what we can as a community to make our environment great for us to be able to use and enjoy, while knowing its safe for our children. I feel we could do this by doing more community work and awareness for what we can do as a council. **Making it easier to take your old furniture to the recycling tip, letting small businesses gain access to these recycling centres**. I think we need clear, maintained and well-lit paths, so people can use them and know these areas are safe. **We need to make sure our parks, grasslands and bridleways are well maintained and cleared of rubbish so children and parents feel safe using them**.

Contact details

If you want to know more about these or other ideas, please contact me on my email jasonblackmore1@hotmail.co.uk

If you need more central contact information then please contact support@lincolnshireliberals.org.uk

Or if you want more information about the party I represent, the liberal party, then please contact <http://liberal.org.uk/>
